PREFACE TO THE SECOND EDITION	8
EXECUTIVE SUMMARY	9
EMV Chip: the Basics	9
Leveraging the EMV Chip Infrastructure	10
Realising the Core Benefits of EMV Chip	10
Adding Value with EMV Chip	12
Business Opportunities	17
PART I: ABOUT EMV CHIP	19
1. INTRODUCTION	19
2. TECHNOLOGY DEVELOPMENT	21
Hinzmann's Golden Rules	21
Infrastructures and Applications	23
Standards	25
The Hype Curve	26
Disruptive Technologies	27
3. SMARTCARDS	29
The Basics	29
Standards	30
Smartcard Operating Systems	31
Smartcard Applications	32
Lessons Learned	36
4. CARD PAYMENTS – A BRIEF INTRODUCTION	37
History	37
The Four Party Model	38
Revenues	39
Types of Card	40
The Card Payments Infrastructure	41

5. EMV CHIP	43
A New Card Payments Technology	43
The EMV Standard	45
How it Works	48
6. REALISING THE CORE BENEFITS OF EMV CHIP	51
Key Benefit: More Security	51
Other Benefits of Chip	54
Migrating to Chip	58
PART 2: ADDED VALUE EMV CHIP APPLICATIONS	61
7. ADDING VALUE WITH EMV CHIP	61
Generic Features of EMV Chip	61
Benefits for Banks	63
Main Types of Added Value Applications	64
8. MULTI-PAYMENT CARD	67
How It Works	67
Business Propositions	67
Marketing	68
Deployment Experience	69
Conclusions	70
9. REMOTE CHIP AUTHENTICATION (RCA)	71
How It Works	71
RCA Business Propositions	74
Virtual World Fraud	76
RCA as a Virtual World Fraud Solution	77
Deployment Experience	81
Conclusions	84
10. E-PURSE	85
Background and Context	85
Pre-Authorised Payment: How It Works	87
Business Propositions	88
Deployment Experience	91
Conclusions	95
11. CONTACTLESS PAYMENT	97
How it Works	97
Business Proposition	100
Benefits	100
Marketing	101
Deployment Experience	102
Conclusions	105

12. DATA STORAGE ON THE CARD	107
Open Data Storage	108
Mass Transit Ticketing	109
Loyalty and Enhanced Payments	114
Personal Data Storage	119
Conclusions	123
13. ENTITLEMENT APPLICATIONS	125
Scenarios	126
How it Works	127
Technical Issues	129
Benefits	131
Deployment Opportunities: the Social Card	132
Other Deployment Opportunities	134
Conclusions	137
14. MOBILE PAYMENTS	139
Mobile Banking	140
Mobile Commerce	140
Mobile POS Payments	142
Mobile Wallets	145
Mobile Terminals	148
Mobile-to-Mobile Payments	149
Conclusions	150
15. DISPLAY CARDS	153
Business Propositions	153
Benefits	155
Deploying Display Cards	155
Deployment Experience	156
Conclusions	158
16. BRINGING IT ALL TOGETHER	160
The Multi-Application, Multi-Partner Community Card	160
Case Study – The Banco Santander Campus Card	161
Opportunities for Banks	163
Opportunity Checklist for Banks	165
Opportunities for Non-Banks	166
Opportunity Checklist for Non-Banks	170
Conclusions	171

17. THE US MIGRATION TO EMV CHIP	172
Introduction – The “End of the Beginning”	172
Background – Why US Migration Has Started	172
Card Scheme Roadmaps	175
US EMV Migration Issues	176
The Need for US Industry Alignment and Coordination	181
The US Added Value Application Opportunity	182
APPENDIX 1: CRYPTOGRAPHY – A HIGH LEVEL OVERVIEW	185
Symmetric Cryptography	185
Asymmetric (Public Key) Cryptography	186
APPENDIX 2: ABBREVIATIONS	188
APPENDIX 3: REFERENCES	191
