

PRESS RELEASE

London, 9th February 2018

RBR and EAST to co-locate key security events, bringing unprecedented concentration of ATM, cyber and financial fraud expertise to London

RBR and the European Association for Secure Transactions (EAST) are pleased to announce they will be co-locating key security events at the Park Plaza Victoria hotel in London, on 9th and 10th October 2018.

RBR's *ATM & Cyber Security 2018* conference has established itself over the past decade as the world's leading conference focused on physical and logical ATM security. The 2017 event attracted 400 delegates representing 150 organisations from over 40 countries.

The *EAST Financial Crime & Security (FCS) Seminars*, organised by the EAST Expert Group on all Terminal Fraud (EGAF) and the EAST Expert Group on ATM & ATS Physical Attacks (EGAP), first took place at the third *EAST FCS Forum* in June 2017.

Co-locating these important events provides a unique opportunity for ATM and financial security professionals, including retail banks, law enforcement agencies, hardware and software providers and a range of industry bodies, to meet to discuss how best to address the latest security threats.

RBR's *ATM & Cyber Security 2018* conference will run for 1.5 days, immediately followed by the *EAST FCS Seminars*. While the RBR and EAST events will continue to be run independently, hosting them in the same venue will concentrate an unprecedented level of expertise, with the ultimate objective of reducing the levels and impact of crime at ATMs and other payment terminals.

Addressing the new initiative, RBR's Managing Director Dominic Hirsch said, *"EAST has a unique relationship with its members and RBR has for many years been impressed with the professional way it leads fraud intelligence and information sharing across Europe and beyond. There has always been a mutual respect between our organisations and we are delighted to have the opportunity to work together"*.

EAST's Executive Director, Lachlan Gunn added, *"ATM & Cyber Security is an important global security conference with a proven track record, and we believe that co-locating it with EAST's user-driven FCS Seminars provides a compelling proposition for our members and for all industry stakeholders"*.

Notes to editors

If you have any questions about this press release, or any of RBR's upcoming events, please email conferences@rbrlondon.com. To contact EAST please email coordinator@eas-team.eu.

RBR is a strategic research and consulting firm with three decades of experience in banking and retail automation, cards and payments. It has been organising specialist conferences on ATMs and branch banking for more than a decade, including events in Bangkok, Beijing, Dubai, Istanbul, Jakarta, London, Manila, Mumbai, Orlando and Warsaw. For more information please visit www.rbrlondon.com/events.

Founded in February 2004 as the European ATM Security Team, EAST became the European Association for Secure Transactions in June 2017. EAST is a 'non-profit' organisation whose National Members are committed to gathering and collating information on both Terminal and Payment security within their countries/regions, and sharing it with EAST Members and Law Enforcement Agencies. Further information can be found at www.association-secure-transactions.eu.
